ASTIGMATISM.

**What it is, and How Cor-
rected.**

Astigmatism or Irregular Vision is
one of the most common of all the re-
fractive errors. It is due to the irregu-
lar curvature of the film known as the
Cornea. Of course no instrument is
sufficient to correct it, but in the hands
of a thoroughly efficient and competent
eye specialist the ophthalmometer re-
veals the exact condition of the eye in
a way that nothing else can. If your
eyes need attention have DR. J. T.
JOHNSON to put them under this won-
derful instrument. Office hours 8:30

G. C. COMMENCEMENT.

**A Fine Stuffed Mountain Lion Pre-
sented to the College.**

The college has just received through
the kindness of Mr. Joseph M. Dixon,
of the class of '98, a fine specimen for
the museum of natural history, viz, a
mounted mountain lion, or puma. The
animal is more than seven feet long,
its head stands high—about four feet—
with mouth open showing powerful
teeth. Its tail is large, about three feet
long and nearly straight. One hind
foot stands well forward; and its ap-
pearance is, in every way, a striking
one.

The college greatly appreciates be-
ing remembered by her sons in this
way. Mr. Dixon is a prosperous law-
yer at Missoula, Montana, is a son of
Mr. H. W. Dixon, of Snow Camp, N. C.,
and although like many other of her
distinguished sons, he has left his
native state, he still cherishes for her
the kindest interest.

The following is a program of the
various exercises of commencement
week, to all of which the public
will be cordially welcome;

IMPORTANT TO VOTERS.

Instructions in Regard to Friday

Night's Meeting.

At a meeting of the democratic ex-

ecutive committee held today the fol-

lowing resolution was passed:

Be it Resolved, That in order to

avoid confusion and to have an abso-

lutely fair expression of the will of the

democratic voters at the general meet-

ing in the court house on Friday night,

April 28th, it is the sense of the ex-

ecutive committee that each ward as-

semble together in a portion of the house

assigned to it. That each ward have

a chairman and tellers, and that each

ward cast its vote for mayor and an-

nounce to the chairman of the meeting

through the chairman of the ward.

Shober-Gorham Nuptials.

The marriage of Miss Annie Leo

Shober and Mr. Julien A. Gorham

will be solemnized at the First Presby-

terian church tomorrow (Thursday)

morning at 11 o'clock, Rev. Dr. E. W.

Smith officiating.

Miss Shober is one of Greensboro's

best loved daughters, and no doubt

the church will be filled as a token of

the love and esteem in which she is

held. Prof. Parker will preside at the

organ and Miss Langhorne, who has

one of the most charming voices heard

in Greensboro for many years, will

sing "Because I Love You, Dear."

Friends of the family are cordially

invited to be present.

Should Succed Himself.

Editor Telegram:—We think Mr.

Taylor should succed himself. He

has made us a good mayor during the

short time he has served us, and as to

his ability, we know of no one who is

more competent. Some one has said

they wanted a man of age. That is a

thing of the past. You may go to any

city, and you will find that where the

city is in the hands of young men there

is more life and development in all

lines of industry, and a young man has

his reputation to make, and he is very

apt to act with prudence. Let us have

a young man for mayor, and I know

of no one more suitable than Z. Bolen

Vance Taylor. First Ward.

INSURGENTS ARE DESPERATE

**And Fight Fiercely in Last Stand
at Calumplit.**

ARTILLERY USED FIRST TIME.

**Modern Shrapnel Hurled at the
American Troops, But Shells
Burst Without Damage**

By Cable to THE TELEGRAM.

Washington, April 26.—The latest
cablegram received indicates beyond
doubt that it is the plan of the in-
surgents not to make a stand at Calumplit.
The news that on yesterday the Phil-
ippines began burning the principal
buildings of the town is accepted as a
sure sign that their leaders are retired
in the policy of continuing the retreat
after inflicting as much damage as
possible. Fortunately the Americans
have been preparing for just such an
event. The forced march of Lawton's
division toward Norzagar was delib-
erately planned for the purpose of cut-
ting off the enemy in the retreat.

It is thought that Lawton reached
his expected point last night. After a
rest this morning he will make a sharp
turn westward, being joined by the
center column from Bocave.

INSURGENTS FIGHTING DESPERATELY.
Manila, April 26 (evening).—Agui-
aldo's army is today defending Cal-
umplit energetically, which is said to
indicate that the insurgents are mak-
ing their last desperate stand, which
the Americans expected them to make
at Malolos. The Philippines have used
artillery for the first time. They
brought two guns into action in the
trenches before Calumplit today, firing
modern shrapnel, which burst over
the heads of Wheaton's men without
effect.

The fighting, which began yesterday
has resulted in the capture of the out-
er trenches by the Americans. During
the night our engineers repaired the
Bagbag bridge, enabling our
troops to pass over the river. Fight-
ing was resumed at six this morning.
Wheaton's bridge advanced in ex-
tended order, the Kansas regiment
occupying a position west of the
railroad. The Montana regiment, at
1, took a position covering one and a
half miles on the south bank of the
Rio Grande, and fortified their trench-
es, from which a few American sol-
diers were able to defy thousands, so
strongly were they constructed. The
Americans found the trenches on the
south bank of the river deserted.

A Weaver Found.

About a week ago Mr. S. J. Kauf-
mann advertised in the Telegram a
hat to be given to anyone who could
wear it. It was a number 10 and when
Mr. Kaufmann saw it slip over the
ears of Mr. W. E. Coffin he lost all
hope of ever finding a wearer. But
today Mr. Thomas Donnell, of Hinton,
this county, called at the store to try
the hat on and he is now its owner.
The barrel-like headpiece is a little
bit tight. Mr. Kaufmann and Mr.
Donnell then went to Alderman's
store where a photograph of the
wearer was taken.

The hat is the "Howard" and was
made simply for an advertisement.
Mr. Kaufmann has written the house of
his discovery.

Will Blast This Evening.

A Telegram man, in company with
Mr. H. E. C. Bryson ("Red Buck"),
of the Charlotte Observer, rode out to
the steel and iron furnace this morn-
ing. Not even the cheerful society and
sunny face of "Red Buck" could keep
the Telegram man from being reminis-
cent, as he saw the steam and smoke
arise from the engines and furnace.
The prospects of eight or ten years
ago came back—minus the cash invest-
ed. There was no d-g-in-the-manger
spirit; the hope that the effort would
prove profitable to Greensboro and to
the owners was uppermost. But when
he thought of that pretty certificate of
stock, issued several years ago, with a
bright, billous, green border around
it, and a gilt stamp on it, and fancy
filing, he also thought of the little boy
who stumped his toes, and said he had
been big to cry, and it hurt him too bad
to laugh, so he had to grind his teeth
and bear it. The furnace will "blow
out" this evening. It is said to be a
sight worth seeing.

A Ticket Suggested.

Mr. Editor:—I wish to nominate the
following for city officers for the com-
ing year as meeting the requirements
for a broad-minded ticket:

THE CASE OF SAN LUCAS

**Argued in Supreme Court at Raleigh
Yesterday.**

San Lucas, who has been in Guil-
ford's jail for more than six months,
awaiting the decision of the supreme
court in his case will soon know his
fate. The case was argued in the su-
preme court yesterday by the attorney
general for the state. It will be re-
membered that Sam was convicted of
the murder of Henry Wood, and sen-
tenced by Judge Timberlake to be
hung. The execution was stayed by an
appeal.

Sam has had little hope that the su-
preme court would decide in his favor,
and has been despondent ever since
the death sentence was passed upon
him. He takes no part in the conver-
sations carried on among the other
negroes, and only answers questions,
always as short as possible.

FIRST REGIMENT BAND.

**Will Appear in Greensboro Next
Friday Night.**

The Telegram learns with pleasure
that the First Regiment Band, which
is touring the state, will include
Greensboro in the list of cities vis-
ited. Mr. Arthur Butt, the advance
agent, arrived at noon today and made
arrangements with Manager McAdoo
for the band to appear at the academy
of music next Friday night. The
Charlotte Observer in its account of
the concert there says:

This organization, which ranks sec-
ond only to Sousa and Godfrey in the
bands which have visited Charlotte,
gave the first concert of its state tour
in Charlotte last night. It took the
town by storm. The large and criti-
cal audience present was amazed and
delighted at the genuine excellence of
the performance. The band is beyond
question the best band that has ever
been here, with the exception only of
those under the leadership of the
"March King" and "Garter King."

Mayor Taylor Eulogized.

Editor Telegram:—We are much
surprised at the effort that is being
made to displace our excellent mayor,
and cannot imagine a good reason for
such action. He has, in our opinion,
been one of the most active, vigilant
and progressive mayors this city has
ever had. He has ever been watchful
of the city's material advancement,
and has given freely of his time and
money for the purpose.

During the worst weather for many
years, he went to work and perfected
an organization for the relief of the
distressed that has not been equalled
in our city, giving days entirely to the
work and tramping through the snow
to see that suffering was relieved. He
has presided with dignity at the meet-
ings of the board and has enforced the
law without partiality.

He is not as old as Mr. Scott, but is
old enough to have excellent judgment
and young enough to be active and
progressive.

It is true that he is not an active
member of the church but we do not
think that that fact ought to weigh
against him as some of your corre-
spondents seem to think it should, and
he is not a "preacher, crank, fanatic
or snollygoster" as your correspondent
of yesterday would have us believe
a majority of the people of Greens-
boro are.

In our opinion our people will make
a great mistake if this estimable young
man is not re-nominated.

Many Citizens.

For Dispensary Keeper.

Mr. Editor:—We are gratified to
know that Mr. R. P. Gorrell's name
has been mentioned as general man-
ager of the dispensary for the ensuing
term and trust that those in power may
see the necessity of giving it to a man
of experience, a man of integrity and
one who always has the interest of his
fellow man at heart, and we know of
no better man suggested than the name
of Mr. Gorrell.

Many Citizens of Greensboro.

Entitled to Re-election.

Editor Telegram:—Mayor Taylor
has shown more interest in the busi-
ness affairs of Greensboro than any
mayor who has filled the office. He
has been as active in the promotion of
our mutual interests as if he had been
the president of a Chamber of Com-
merce. Mr. Taylor should have the
unanimous endorsement of the busi-
ness men of Greensboro.

Many Business Men from 6th ward.

For Aldermen.

Editor Telegram:—A. L. Rankin
would make a progressive but conser-
vative alderman from third ward. He
is a good citizen and one of our best
business men and would help to give
a good administration

THE YEAR BOOK FOR 1899

**To Be Issued by the Department
of Agriculture.**

WILL BE VERY INTERESTING.

**The May Conference at Richmond
is to be Largely Attended.**

Novement of Importance.

Special to the Telegram.

Washington, D. C., April 26.—The
Year Book of the department of agri-
culture for 1898 is now in press, and
will be ready for distribution early in
May. It is a volume of 768 pages, and
is divided into three parts. The first
part, as usual, consists of the annual
report of the secretary of agriculture
for the fiscal year 1898, and covers the
operations of the department for that
year. The second part embraces mis-
cellaneous papers prepared, with few
exceptions by the chiefs of bureaus,
divisions, and offices of the depart-
ment. The third part is the appendix.

Special attention has been given to
this part of the volume, with a view to
increasing its scope and usefulness, and
an effort has been made to give the
appendix the character of an agri-
cultural directory. In addition to the
usual department directory, and the
directory of colleges and experiment
stations, there have been included lists
of the principal officials having charge
of agriculture in the several states; of
managers of farmers' institutes; of
national and state dairy officials; of
the several associations of cattle,
horse, sheep, and swine breeders, with
their secretaries; of poultry associa-
tions; of state veterinarians, and state
health officers; of the forestry officers
of the different states, and of the state
forestry associations; of the officers of
horticultural and kindred societies,
state granges, etc. The editor of this
valuable departmental work is Mr.
George William Hill. The work this
year is much more extensive in its gen-
eral scope than is usually the case, and
it is one of the best books issued by
the government, and is especially val-
uable to the farmers of the country.

There will be very few copies for gen-
eral distribution, and agriculturists
desiring a copy should make applica-
tion to their senator or representative
at the earliest possible moment.

Persons coming to Washington from
Virginia say that in spite of the state-
ments made by the opponents of a
change in the system of nominating
United States senators, that much in-
terest is felt in the movement by the
rank and file of the democratic party
in the state.

A democrat stated yesterday that
the May conference at Richmond will
be largely attended. As evidence of
the fact that the movement amounts to
something, and is not to be belittled,
despite the assertions of its opponents,
the majority of the Virginia demo-
cratic leaders take no interest in it,
he cited the fact that the movement is
supported by such leaders as Gov-
ernor Tyler, Attorney General Mont-
ague, Representative Jones and others,
who have the rank and file of the
party in their various localities be-
hind them. It is true that a large pro-
portion of Senator Marshall's last
year political friends oppose the
movement, but the most that can be
said is that from appearances in
Washington, the sentiment for and
against the proposed change seems to
be about equally divided.

It is stated on good authority that
former Congressman Meredith will
stand before the next congressional
convention as a candidate for the
house of representatives. Mr. Mer-
edith has many friends in Washington,
who would be pleased to see him back
in the national arena.

The case of the Yazoo and Missis-
sippi Valley Railroad Company et al.,
plaintiffs in error, against Wirt
Adams, state revenue agent, was be-
fore the supreme court Monday after-
noon. Motions to dismiss or affirm
were submitted by R. C. Beckett, in
support of motions and by Hon. Wm.
D. Guthrie and Edward Mayes and
James Pentecost, in opposition thereto.

Lewis A. Carr, of Durham, North
Carolina, has filed a petition in court
asking that the firm of William A.
Porterfield & Company, comprising
William A. Porterfield and Roy D.
Hassler be declared a bankrupt. The
petitioner is a creditor of the former
brokerage firm, and in his petition
recites the circumstances of their as-
signment last summer. Ralston &
Siddons are attorneys for Mr. Carr.

A marriage license has been granted
to Allen A. Wyche, of Charlotte, N. C.,
and Ellen J. Davis. The couple
were married Monday night.

Secretary and Mrs. Day arrived in
Washington from Asheville, where
they have been spending some time.
They are guests at the white house
where they will remain several days
before going to Gaston, O.

WEDNESDAY, APRIL 26, 1899.

WE ARE "SNOLLYGOSTERS."

A communication signed "Cripple," which appeared in yesterday's Record, endorses Mr. L. M. Scott for mayor, and says he is pre-eminently the man for the place—particularly at this time, "when the clergy, aided by the busy cranks, fanatics and snollygosters, are blindly proclaiming that the welfare of the city demands the disturbance of vested rights, the confiscation of property legally and honestly acquired, and the trampling under foot of those sacred and inalienable rights guaranteed to every individual, and that the church, through its accredited representatives, shall run the liquor business for revenue only, for the benefit of the state, with incidental protection to itself."

The Democrats of Greensboro, as well as many Republicans, will doubtless resent in a proper manner the above-attempted insult to those noble men of the ministry who propose to bridle the demon rum. And the five hundred and thirty-three men who waded through snow, rain and sleet to vote in the dispensary primary, and who are here termed "busy cranks, fanatics and snollygosters," will want to know before voting time comes if "Cripple" has expressed his candid opinion of them.

Men of Greensboro! shall we submit quietly and contentedly to being thus slapped in the face?

Shall we bow down to the "sacred and inalienable" right of a few men to run their wide open and gilded parlors of vice and liquid damnation, to go on in their unrestrained work of manufacturing drunkards, debauching manhood and damning souls?

Are we to infer that "Cripple's" candidate, if elected, will disregard the law by which the dispensary was created? If not, why is this reason urged?

Let men be chosen who will respect, obey, advocate and uphold the moral side of every question, at the same time men who are "broad-minded" enough to see and take care of the financial and other material interests of the city.

THE ODIUM ON GEORGIA.

The papers all over the country are justly sear in condemnation of the barbarous act of the Georgia citizens of last Sunday. While the crime of the negro was awful and deserving of the swiftest retribution, the punishment was more than awful. All good people regret it and hope that the perpetrators may be brought to justice. The authority and the dignity of the law must be upheld at all hazards, and a check put upon the dangerous will of the mob. But how is it to be done? This common crime, of which that black fiend's was an instance, will never go unpunished in the south as long as the southern white man loves his wife and his daughter. It arouses all the malignity of his soul. The reason stands paralyzed, and, and fury and vengeance reign instead till the scoundrel has gasped away his final breath.

The law must be so arranged as to meet the requirements of the situation, or the rabble's frenzy will always appease itself. It acts wherein the law is deficient—or where it thinks the law is deficient.

The Raleigh News and Observer, discussing the matter in an excellent editorial, says it seems impossible to secure reform in the delay of the courts, and that in North Carolina in a criminal case, the person charged with a crime is given so many advantages over the state that the ends of justice are often defeated.

"At the last session of the Legislature," continues the News and Observer, "an earnest attempt was made to reduce the number of challenges a defendant has in a criminal case, and give the prosecution an equal chance. It failed though supported by an overwhelming public sentiment. It is such provisions that enable shrewd lawyers sometimes to secure mistrials and ac-

quittals, after delays have exhausted the patience of the public.

"The horrible method of avenging wrong in Georgia ought to cause such reforms in the criminal procedure as will give no excuse to an outraged people for taking the law into their own hands."

The Atlanta Constitution publishes a page of opinions on how to prevent lynchings. The following from Governor Northern is as original as it would prove effective:

"My first suggestion is that all homes should be made miniature arsenals, at least to the extent of one good Winchester and one good pistol; that women be allowed to carry weapons upon their persons, concealed, if so desired, and that they be taught the use and handling of firearms, so that they may become their own protectors in the absence of the husband or master of the house. An occasional negro lying dead in the back yard, shot by a brave woman in defense of her honor, will do more to stop this awful crime than all the lynchings that may occur in a year. I would have every county supplied with at least a half dozen well trained bloodhounds. I would have an organization of at least twenty men in each county who should have supervision of all lawlessness and disorders in the county."

THE PHILIPPINE SITUATION.

The situation in the Philippines grows in seriousness every day. The president has found that the task of conquering the islands is infinitely greater than he at first anticipated, and he has before him a problem that will require great wisdom and a careful hand to solve, and which is destined to bring to his troubled brow many more furrows of care.

During the past few days many of our boys have given up their lives, and a large number have been wounded. The heat is terrific, and death from sunstroke frequently occurs. The Filipinos are improving remarkably in their manner of fighting, sticking to their trenches longer and making their assaults with greater boldness and bravery, and in each engagement while the odds are always largely in favor of our troops, the Filipinos sustain less and the Americans greater damage than marked the earlier fighting of the armies. The insurgents have an immense advantage in climatic conditions, and the troubles to our troops resulting from the rainy season have only begun.

The time has passed, we think, to question the holiness of the war. Imperialism may be wrong, but the fact is staring us in the face that Americans are falling at the hands of the foe. The government has taken a position that she must sustain. Its too late to back down now. Send Otis all the men he wants and for every drop of American blood that has been poured out on that foreign strand, let a Filipino die.

PLEASING FIGURES.

It is wonderfully pleasing how fast the south increases in railroad construction, in the building of new lines and the extension of old ones. The Railway Age in its last issue presents a table which shows that of the 590 railway lines in the United States 298 are in the South Atlantic, Gulf, Mississippi valley and southwestern states. The Railway Age regards the south as the most hopeful field for railroad enterprise and calls attention to the fact that the prospect of railroad development is better in the south than in any other part of the country. On this subject, it says:

"By referring to the table it will be seen that the largest projected mileage is located in the southwestern states (right in number,) but it should be explained that a large proportion of this mileage is composed of recently incorporated lines, although there are about 750 miles under contract or construction in that region at the present time. In the six states classed as the south Atlantic states, and which show a projected mileage of 6,200 miles there are not less than 793 miles actually under way, while the five Gulf and Mississippi valley states, with 6,657 miles projected, show 401 miles under contract or construction. In the New England states there are nearly 100 miles of road on which work is actually in progress, and in the five middle states there is little new work under way outside of Pennsylvania."

The sun-kissed hills of Dixie are attracting industrial development as never before and industrial prosperity sits roscate on the horizon.

THE CENSUS BUREAU'S TASK.

Next year is census year and the government has a big job on its hands. In addition to the numbering of the people in the states and territories, the bureau will be charged with the task of making full census reports for Alaska and Hawaii.

The Philadelphia Record says: In Hawaii the work will be comparatively easy; but the census of Alaska is a very different matter. This far northern region is no longer populated only by scattered bands of savages and a few fishermen and mining ad-

venturers, but contains a large and constantly increasing number of American citizens engaged in varied forms of profitable industry. Owing to climatic conditions, census taking in Alaska can be undertaken only during the winter season, so that the work will not be finished until nearly a year after enumeration in the United States has been completed.

And how about Porto Rico and the Philippines? This territory now belongs to us, and we must have all of our inhabitants on the rolls, too.

In contemplating the vast work before it, we wonder that the census bureau doesn't take on an attack of "That Tired Feeling."

Captain Coghlin, of the cruiser Raleigh, has won more renown by his New York banquet insolence than by the part he played in the naval engagement at Manila. That speech gave offense to the Germans and embarrassed the American government, but it made Coghlin famous. He has tickled and pleased the public, and the public is his friend. They'll be mentioning him for president soon.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask, who are the wise? Those who know. The oft-repeated experience of trust-worthy persons may be taken for knowledge. Mr. W. M. Perry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. WINE OF CARDUI

A SURE MEDICINE.

Hudson, Va., Dec. 31.
I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Back-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

Wine of Cardui

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the female organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

Brass and Iron Bed Steads.

How many persons realize that in a small bedroom a Brass or Iron Bed does not seem more than two-thirds as large as a wooden one of the same size. Here is one great cause for the popularity of brass and iron beds. Then, too,

They Are So Airy and Open

that they afford much better ventilation. They do not enclose the sleeper with wooden walls, shutting off all circulation of air, but there is an open frame giving the utmost ventilation. All the world knows their intrinsic cleanliness. They are as neat as wax, as clean as snow. If properly lacquered they will retain their high lustre for years.

We show the largest variety of styles and designs of any house in Greensboro and our prices will be found lower for the same grade of goods.

FIRE AT PILOT MOUNTAIN.

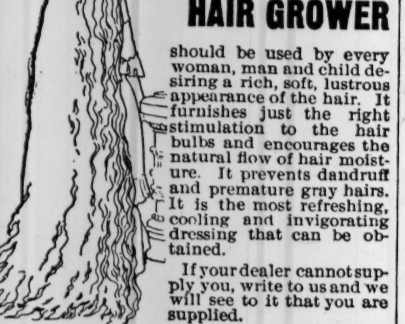

Warehouse and Several Stores Utterly Destroyed.

Pilot Mountain, N. C., April 25--This morning at 9 o'clock fire broke out in the office of J. Hiatt's furniture store. In less than two hours the stores of Job Hiatt, Dodson Bros., and G. O. Key, also the Farmers' warehouse and residence of H. G. Whitaker, were utterly destroyed. The conflagration was terrific, and for a time it seemed that a large part of the town would surely be destroyed.

Monday next the citizens meet to vote on the question of issuing bonds to erect water works. It is believed that water works will surely be erected to prevent another such disaster. Special to News and Observer.

Valuable sugar plantations in Louisiana are endangered by a crevasse in the Mississippi, near Raceland.

Promising Pupil.

Some years ago a well known American pianist gave a concert at which he played a duet for two pianos with a pupil. The pupil, a young man of great talent, had come from a small town, and one of the well to do natives of the town went to the city for the sole purpose of attending the concert. On his return he was asked what he thought of the young man's musical achievements.

"He's doing as well as anybody could wish, and he'll do better yet," replied the prosperous townsman, with decision.

"He played a piece with his teacher that was 20 pages long. He gave the teacher the start by five minutes, and then he clipped in, and they came out at the end nip and tuck, if you'll believe me. Well, sir, when I heard that, I made up my mind we needn't worry another mite about how George would succeed."

"His teacher considered the best piano player in this part of the country, and if George could do what he did at that concert it won't be many years before he'll beat him out and out, you can just rely on that."

"I'd be willing to bet, if I was a betting man, that in two years' time that teacher won't dare to undertake one of those two piano pieces with George unless George gives him a good ten minutes' start of him!"--Youth's Companion.

Can't Twiddle Their Thumbs.

The gorilla and chimpanzee, which belong to the higher order of apes, have many points of resemblance to man, but there is one thing they cannot do--that is, twiddle their thumbs. In the gorilla the thumb is short and does not reach much beyond the bottom of the first joint of the forefinger. It is very much restricted in its movements, and the animal can neither twiddle his thumbs nor turn them round so that the tips describe a circle.

There are the same number of bones in the hand of a gorilla as in the hand of man, but the thumb of the monkey have no separate flexor or bending muscle. This is why a monkey always keeps the thumb on the same side as the fingers and never bends it round any object that may be grasped.

In the gorilla the web between the fingers extends to the second joint, the fingers taper to the tip, and there is a callus on the knuckles on which the animal rests when walking on all fours.

There are many other strong points of resemblance between the two animals, but--well, we wish to be charitable to our fellow man and will therefore drop the subject.

People who have once taken DeWitt's Little Early Risers will never have anything else. They are the "fa oux little pills" for torpid liver and all liver ailments of the system. Howard Gardner.

Little, neglected scratches and wounds frequently result in blood-poisoning. Better heal them quickly with DeWitt's Witch Hazel Salve, a thoroughly antiseptic application with a record of always curing piles, old ulcers, sores, cuts, wounds and skin diseases. Howard Gardner.

Pneumonia, la grippe, coughs, colds, croup and whooping-cough readily yield to One Minute Cough Cure. Use this remedy in time and save a doctor's bill--or the undertaker's. Howard Gardner.

Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky." Sold by C. C. Holton, druggist.

If you suffer from tenderness or fullness on the right side, pains under shoulder-blade, constipation, biliousness, sick-headache, and feel dull, heavy and sleepy, your liver is torpid and congested. Discovered by a Woman

Another great discovery has been made, and that too, by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery by purchasing of a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose that she slept all night; and with two bottles she had been absolutely cured. Her name is Mrs. Luther Lutz. This writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at C. E. Holton's drug store. Regular size 50 cents and \$1.00. Every bottle guaranteed.
